MULTI CAB

817E

Mobile material handler

817E Advanced. The E-Series

1962: rope-driven S833 with elevated operator cab

What makes up the E-Series

- 65 years of experience in designing and constructing hydraulic material handlers
- Uncompromisingly high performance in all areas: Focus on material handling
- Technology that can be mastered: High-quality components without over-engineering
- Long service life and high value stability

Your top benefits:

1

Green Efficiency

Save fuel – reduce operating costs
Work quietly – protect operator and environment

2

Peak performance

Durable mechanical systems – stressed parts optimized
High speeds – high load capacities

3

Maximum usability

MultiCab – work in comfort
SENCON – SENNEBOGEN Control System

4

Maximum safety

Safe entry and exit – no-slip steps
State-of-the-art cameras – entire work area in view (option)

5

Maintenance and service made easy

Easy fault diagnosis – central measuring points
Easy maintenance – clear labeling

6

Consultation and support in your area

3 production sites – 2 subsidiaries
150 sales partners – over 350 service stations

817E The E-Series. At a glance.

Four ways to save fuel

- Up to 20% savings: Working in Eco-Mode with reduced engine speed
- Idle automation reduces speed to 40% of operating speed
- Stop automation switches the engine off when not needed
- Optimized engine settings, reduced specific fuel consumption, state-of-the-art exhaust aftertreatment

Quiet operation 4

- Consistently quiet operation thanks to decoupled engine mounts and soundproofing in the doors
- Sound power level according to 2000/14/EC up to 2 dB lower than required

High-capacity cooling 5

- Constant, reliable performance thanks to large-dimensioned and robust fans and coolers
- Fans deliver optimum efficiency thanks to drive based on axial-piston pump. Temperature-controlled fan speed

Maximum safety

- Protective grating for cab*
- No-slip work surfaces ①
- Hand rails*
- 2 cameras to the right and rear* ②
- optimized entry onto the uppercarriage ③

Powerful hydraulic system ⑥

- Strong pumps with power reserves
- Top efficiency thanks to large-dimensioned hydraulic valves and lines
- Extra-long change intervals of 4,000 operating hours through initial fill-up with high-performance oil, with extended service life when using SENNEBOGEN Hydro-Clean*

MULTI CAB The comfort cab.

Panoramic view continuous windshield

Equipment features

- optimum climatisation
- panoramic view with all-around glazing in safety glass, large roof window
- with heating/air conditioning
- comfort seat adjustable according to weight and shock-absorbent
- ergonomically arranged operating controls
- various options: comfort arm rest, auxiliary heating, seat climatisation, radio with Bluetooth

SENNEBOGEN joysticks

- consoles and ergonomic joysticks that move with the seat
- pleasant grip through ergonomic design
- precise control of all movements through direct and sensitive function activation
- quick access to all operating controls through optimized design of all push-buttons and switches

817E Maintenance and service made easy

Optimized for maintenance

- Fast and easy diagnosis thanks to straightforward and clearly labeled electrical distributor
- Easy access to all service points on the machine
- Automatic central lubrication for equipment and slewing gear*

SENNEBOGEN Hydro Clean*

- Optimal protection of hydraulic components thanks to 3 µm micro-filter
- Cleaner hydraulic oil, longer service life

Central measuring points

- Easily accessible
- Quickly inspect entire hydraulic system

Clear labeling

- All parts labeled with a unique part number
- Easy and reliable spare parts ordering

817E Modular design – versatile solutions

Attachments

-  Sorting grab
-  Orange peel grab
-  Clamshell grab
-  Magnetic plate

Equipment options (others available upon request)

Cabs

Cab elevation

Uppercarriage

-  Diesel-hydraulic drive
-  Electrohydraulic drive

Options

-  Motorized cable reel
-  Transformer

Undercarriage variants

Mobile MP17

Crawler R15/200

4-point-pedestal
ST17

- Decades of experience
- State-of-the-art computer simulation
- Maximum stability and service life

Ideal illumination
thanks to powerful LED
headlights*

Ideal overview
and safe working height
thanks to stable cab
elevation

High load capacities
and fast working speeds
for rapid sorting

Safety
thanks to handrails
at the upper carriage*

Safe entry and exit
Grip handles and no-slip steps

**Robust
side cover**
made from 100 %
recyclable sheet
steel

**Excellent
stability**
thanks to stable
outrigger

817E Technical data, equipment

MACHINE TYPE

Model (type) **817**

ENGINE

Power	Rated Power: 100 kW at 2200 rpm Operating Point: 97 kW at 1800 rpm
Model	Cummins F 3.8 Stage V Direct injection, turbo-charged, charge air cooler, reduced emissions, EcoMode, idle automation
Cooling	Water-cooled
Air filter	Dry air filter with cyclonic pre-filter, safety element, contamination indicator
Fuel tank	230 l
DEF tank	30 l
Electr. system	24 V
Batteries	2 x cold-start high-performance batteries
Options	<ul style="list-style-type: none"> ■ Electric fuel pump ■ Jump-start terminals ■ Additional cyclone pre-separator

UPPERCARRIAGE

Design	Torsion-resistant upper frame with end shields all the way from boom linkage to counterweight for optimized force transmission, precision-crafted, steel bushings for boom bearings, outstanding design, very low noise emissions
Electrical system	Central electrical distributor, battery disconnect switch
Options	<ul style="list-style-type: none"> ■ Peripheral uppercarriage railing for additional safety ■ LED lighting packages ■ Fire extinguisher ■ Special paint finish ■ Electric hydraulic tank preheater with uppercarriage power socket ■ Low-temperature package (oils, battery heater, hydraulic oil preheater, cab preheater) ■ Magnetic generator 9 kW ■ Automatic central lubrication for equipment and slewing gear ■ Additional ballast 0.5 t ■ Camera package right/rear ■ SENtrack DS telematic system

HYDRAULIC SYSTEM

Load-sensing/LUDV hydraulic system for work and travel functions	
Pump type	Swashplate-type variable-displacement piston pump, load pressure-independent flow distribution for simultaneous, independent control of work functions
Pump control	Zero-stroke control, on-demand flow control – the pumps only pump as much oil as will actually be used, pressure purging, load limit sensing control
Operating pressure	max. 310 bar
Delivery rate	250 l/min
Filtration	High-performance filtration with long change interval
Hydraulic tank	190 l
Control system	Proportional, precision electric actuation of work movements, 2 joysticks for the work functions, additional functions via switches and foot pedals
Safety	All hydraulic circuits are secured with safety valves, emergency release of the equipment and the cab also when the engine is at a standstill
Options	<ul style="list-style-type: none"> ■ Organic oil filling ■ Load moment warning with capacity utilization indicator with/without shutdown ■ SENNEBOGEN HydroClean 3 µm hydraulic microfilter system

SLEWING DRIVE

Gearbox	Planetary gearbox with axial piston motor and integrated brake valves
Parking brake	Spring-loaded, hydraulically vented safety multi-disk brake
Slewing ring	Large-dimensioned slewing ring
Slewing speed	0–8 rpm, variable. Hydraulic brake valves integrated in motor ensure wear-free braking.

817E Technical data, equipment

CAB **MULTI CAB**

Cab type	Multicab, E240 stepless cab elevation, 2.40 m
Cab equipment	Comfort operator's cab, vibration damped, cab front windscreen as 1-pane version with safety glazing, roof window, wiper for windscreen, air conditioning, radio preparation, joystick steering, SENNEBOGEN control & diagnostic system SENCON
Options	<ul style="list-style-type: none"> ■ Front windscreen made of bulletproof glass ■ Roof windows made of bulletproof glass ■ Hammer glass for the side windows ■ Protective ventilation system ■ Wipers for lower front, roof and rear windscreen ■ Sunblind for roof window and windscreen ■ Roof protection guard, FOPS if necessary ■ Frontal protection guard ■ Activated carbon filter, recirculated/outside air ■ Auxiliary heating ■ Air-conditioned seat ■ Radio

EQUIPMENT

Design	Sealed and soiling-protected box design with oversized bearing points for long service life. Oversized bearing points with low-maintenance, sealed special bushings, precision-crafted
Cylinders	Special hydraulic cylinder with hydraulic end position damping, optimized kinematics for high lifting power. The material handling attachment is specifically designed for high-performance applications. Pipe fracture safety devices for hoist/stick cylinder, boom damping.

Options	<ul style="list-style-type: none"> ■ Adjustable hoisting limiter/stick limiter ■ Additional cameras
---------	---

UNDERCARRIAGE

Design	Strong mobile undercarriage, steering axle as hydraulically locking pendulum axle. Pendulum axle cylinder with pipe-fracture safety valves
Drive	All-wheel drive powered by a variable-displacement hydraulic motor with direct-mounted, automatically actuated brake valve and 2-stage power shift transmission. Strong planetary axles with integrated steering cylinder, multi-disk service brake.
Parking brake	Spring-loaded multi-disk brake
Tires	8 x 10.00-20 solid rubber tires
Speed	0-5.5 kph Tier I, 0-18 kph Tier II
Options	<ul style="list-style-type: none"> ■ Individual outrigger actuation ■ Additional pushing blade for 4-point outrigger (front or rear) ■ 2-point claw support and pushing blade (front or rear) ■ Protection for the travel drive ■ Towing coupling ■ Access ladder with tool box between wheels on both sides of undercarriage ■ Pylon extension

ELECTRIC DRIVE **eGREEN**

Option	<ul style="list-style-type: none"> ■ Power: 75 kW / 400 V / 50 Hz Total connected load 160 kVA, machine fusing 160 A at 400 V (alternatively 200 A with magnet system) - motor start-up via star-delta circuit ■ Advantages: lowest operating costs, quiet and virtually vibration-free work, long service life of hydraulic components
--------	--

OPERATING WEIGHT

Mass	817 M with 4-point outrigger, K8 compact loading attachment and 500 l orange peel grab Approx. 17,200 kg
Notice	Operating weight varies by model and equipment.

B17E Load ratings

Undercarriage	MP17	Compact boom Grab stick	4.8 m 3.3 m	Cab	Multicab E240, hydraulically elevating
---------------	------	----------------------------	----------------	-----	---

All load ratings are specified in tons (t) and apply at the end of the stick, without attachment, on solid, level ground. Attachments such as grabs, magnets, load hooks, etc. are part of the specified load ratings. The specified values are 75% of the static tipping load or 87% of the hydraulic lifting force in accordance with ISO 10567. In accordance with EU standard EN 474 / 5, hydraulic material handling machines used for hoisting must be equipped with pipe fracture safety devices on the hoist and stick cylinders and an overload warning device. Load ratings apply to a machine with deployed 4-point outrigger support and 360° slewing. Load ratings in square brackets [] apply to blocked pendulum axle, undeployed outriggers (free-standing) and 360° slewing.

817E Load ratings

Undercarriage	MP17	Compact boom	4.8 m	Cab	Multicab E240,
		Grab stick	3.3 m ULM		hydraulically elevating

*) Available upon request

¹⁾ Weight information without grabs suspension, stick bolts, hose system

²⁾ Half-open shells: shell sheet steel width 400 mm, 500 mm wide for 1250 l capacity and higher

Simple Maintenance

- longitudinally mounted motor
- convenient service thanks to floor accessibility
- weather protection

Occupational Safety

- safe, direct access to the upper carriage
- wide ascents
- non-slip steps

817E Electro - energy saving and efficient solution for material handling without emissions

817E - ideal for indoor use/truck loading with compact dimensions and elevating cab
